

KICKSLEDS

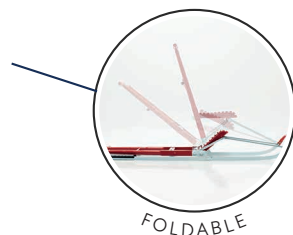

The ESLA kick sled is a classic! Multiple generations have moved around in winter with the ESLA kick sled. Today, a kick sled is a wonderful winter fitness tool suitable for all ages.

The ESLA kick sleds are made from the best raw materials: durable Finnish birch and spring steel. The wide size and colour selection offers something for everyone.

The kick sled can be folded up for transport or storage. **The folding mechanism** works without tools by opening the handles behind the seat and folding the bar part over the runner.

ICE FISHING KICKSLED P6 AND P7

On ice fishers' request, we have designed an ice fishing kick sled. The kick sled is foldable and only 137 cm long. The compact size makes it easy to transport by car. Carrying your fishing equipment on the ice is light and easy with the ESLA kick sled. Metal drill hooks and rubber securing straps as standard accessories.

KICKSPARK

Get a new kick out of exercise and competing with the steel-frame Kickspark kick sled. Despite its light weight, Kickspark is easy to control. The frame is significantly sturdier compared to a traditional kick sled and guarantees a stable slide at high speeds. The riding position is easy to adjust thanks to the handlebar's wide height adjustment range and the upholstered multiple-position handle. Kickspark is excellent for winter activities with a dog. We offer dog equipment kits for one or two dogs. (The pictured Kickspark is equipped with slides)

KICKSLED SIZE GUIDE

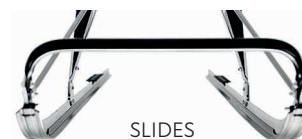

MODEL	COLOURS	LENGTH CM	HEIGHT CM	WIDTH CM	WEIGHT KG	USER HEIGHT CM
T1 Mini		120	59	33	3,9	- 120

T6		180	86	42	8,0	160-180
T7		180	92	42	8,6	170-
T8		180	99	42	9,1	180-
Ice fishing P6		137	86	42	7,4	160-
Ice fishing P7		137	92	42	8,0	170-
Kickspark		154	65-89	38	6,7	100-180
Kickspark Max*		154	72-95	38	5,5	130-195
Adventure**		187	80-98	40	12-14	140-200

The colour options are red, blue, birch, pink and black. The shades here can differ from the actual colours. Foot supports for the slides come as standard equipment. The slides are made from special galvanised spring steel. The wooden parts are made from birch.

*Aluminium frame. Kickspark Max design by Hannu Vierikko.

**Aluminium-frame dogsled

ACCESSORIES FOR YOUR SLED

SLIDES AND SNOW RUNNERS

You can achieve a higher bearing capacity in soft snow conditions by equipping your sled with ESLA slides (35 mm) or extra wide ESLA snow runners (56 mm). The slides make your ride smoother on gritted roads. Available cut to size for Kickspark.

CHILD SUPPORT BRACKET

The padded child support bracket is a kicksled accessory that makes carrying a child easier. The accessory is ideal for carrying children aged 1-5.

BASKET

A basket with a handle is available for the kicksled. Dimensions 33 x 43 x 20 cm. The Kickspark kicksled can be equipped with a mesh basket with fasteners. Dimensions 25 x 27 x 19 cm.
